

MASUM ISLAM BADSHA

MERN Stack Developer

Dhaka, Bangladesh | +880 1929-686694 | mohammadbadsha468@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

CAREER OBJECTIVE

Results-driven MERN Stack Developer with hands-on experience building modern, responsive, production-ready web applications using Next.js, TypeScript, Node.js, MongoDB, and PostgreSQL/Supabase. Passionate about writing clean code, shipping reliable features, and solving real-world problems. Seeking a remote full-stack or frontend role with an international team.

CORE TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, TanStack Query, Zustand, Zod, Tailwind CSS, GSAP, Framer Motion, Shadcn

Backend: Node.js, Express.js, Next.js API Routes, RESTful APIs, GraphQL, JWT, NextAuth/Auth.js, OAuth, Socket.io, Bcrypt.js

Database & Tools: MongoDB, Mongoose, PostgreSQL, Supabase, Prisma, Git, GitHub, Vercel, Stripe, bKash, SSLCommerz, Cloudinary

Soft Skills: Communication, Team Collaboration, Problem Solving, Time Management

PROFESSIONAL EXPERIENCE

Next.js Developer — 1&9 Apparel Creator Ltd.

Feb 2026 – Present

- Build and maintain 19bay, Eliza Source; live production e-commerce platform for a fashion brand and wholesale, using Next.js, Supabase/PostgreSQL, and NextAuth
- Implement programmatic SEO architecture and Meta/TikTok Pixel integration to drive organic traffic and improve conversion tracking
- Integrate the bKash payment gateway and build multi-role order management covering browsing, checkout, and delivery tracking
- Collaborate with design and business stakeholders to ship new features on a fast-moving production codebase serving live customers

KEY PROJECTS

19bay — Live E-commerce Platform

[Live Link](#)

Tech Stack: Next.js, JavaScript, Supabase, NextAuth, bKash, Resend, Framer Motion, Zod

- Multi-role shopping experience covering browsing, wishlist, checkout, and delivery tracking, serving live customers
- Built programmatic SEO architecture and Meta/TikTok Pixel integration for organic growth and conversion tracking
- Serves as the company's primary online sales channel, directly supporting revenue growth for the brand

Eliza Source — B2B Wholesale Marketplace

[Live Link](#)

Tech Stack: Next.js, JavaScript, Supabase, NextAuth, Programmatic SEO

- Live wholesale marketplace connecting resellers with trending products at MOQ-based bulk pricing, starting from 2 pieces
- Built a reseller-focused catalog and bulk-order flow with category browsing, wholesale pricing tiers, and fast delivery
- Supports 2000+ retailers with a reseller-friendly UX designed to convert first-time buyers into repeat wholesale customers

TaskHub — Micro-Task & Earning Platform

[Live Link](#) | [GitHub \(Full Stack\)](#)

Tech Stack: Next.js, TypeScript, MongoDB, Stripe, bKash, SSLCommerz, Socket.io, Redux Toolkit

- Full-stack SaaS platform with 3 role-based dashboards (Worker, Buyer, Admin), a coin economy, and real-time chat
- Integrated Stripe, bKash, and SSLCommerz payment gateways with webhooks and NextAuth v5 Google OAuth
- Designed a scalable coin-to-USD withdrawal system, demonstrating production-grade payment and state-management architecture

Care.io — Caregiver Booking Platform

[Live Link](#) | [GitHub \(Full Stack\)](#)

Tech Stack: Next.js, TypeScript, Supabase, NextAuth.js, Stripe, Resend, Cloudinary

- Engineered a 4-step booking engine with Stripe Checkout, real-time pricing, promo codes, and time-based refunds
- Delivered an Admin Analytics dashboard with revenue tracking and a caregiver verification pipeline
- Built an end-to-end trust system pairing verified caregiver profiles with automated booking confirmations via Resend

CERTIFICATION & EDUCATION

[Complete Web Development Course](#), Programming Hero | 28 June 2025 – 28 January 2026

B.Sc. (Honours) in Soil Science | Dhamrai Government College, National University, Dhaka | 2025 – Present
